

# International Proposal Check Workshop - Registration Form

Fields marked with \* are mandatory.

Research Infrastructures NCPs Network Consortium for Horizon Europe

## Registration Form

*RICH Europe International Proposal Check Workshop*

16th-17th February 2023  
in Prague and online

RICH Europe is organizing a Proposal Check Event for the Research Infrastructures call 2023. The hybrid event will take place on 16th and 17th February 2023 (noon-noon) at the Technology Centre Prague. The event offers coordinators and proposers from widening countries a chance to improve the quality of project proposals based on feedbacks from experienced external experts and National Contact Points (NCPs). The hybrid event aims to transfer useful knowledge and increase proposers' chances for funding. The maximum number of proposals to be consulted is 6. The event is open as well to the RI NCPs giving them an opportunity (mainly to less experienced NCPs), to learn how the projects are evaluated. **Please, fill in this registration form by the 6th February 2023 to participate. Please, be aware that the abstract section will be used to assess your application.**

---

**Registration – RICH Europe International Proposal Check Event (for RI NCPs only the first 5 items to be completed)**

**FOR ALL PARTICIPANTS**

\* Name:

Marlon Alexander Medina Chavez

\* E-mail:

alexandremedina06@gmail.com

\* Country:

Honduras

\* Participation:

online

onsite

\* Experience as an NCP (for NCPs only) number of years:

8

**FOR PROJECT COORDINATORS/PROPOSERS**

Project proposal title:

Strengthening and Transfer of Capacities in Research Infrastructures in European Higher Education Institutions and Centroamerican Universities

Acronym:

## Call:

- Developing, consolidating and optimising the European research infrastructures landscape, maintaining global leadership (2023)
- Enabling an operational, open and FAIR EOSC ecosystem (2023)
- Research infrastructure services to support health research, accelerate the green and digital transformation, and advance frontier knowledge (2023)
- Next generation of scientific instrumentation, tools, methods, and advanced digital solutions for RIs (2023)

## Topic:

- HORIZON-INFRA-2023-DEV-01-01: Concept development for a research infrastructure to manage, integrate and sustain large medical cohort studies
- HORIZON-INFRA-2023-DEV-01-02: Early phase implementation of ESFRI Projects which entered the ESFRI Roadmap in 2018
- HORIZON-INFRA-2023-DEV-01-03: Consolidation of the RI landscape – Individual support for evolution and long-term sustainability of pan-European research infrastructures
- HORIZON-INFRA-2023-DEV-01-04: Consolidation of the RI landscape – development of complementarities, synergies and/or integration between a set of pan- European research infrastructures
- HORIZON-INFRA-2023-DEV-01-05: Preparation of common strategies for future development of RI technologies and services within broad RI communities
  
- HORIZON-INFRA-2023-DEV-01-06: Strengthen the bilateral cooperation on research infrastructures with Latin America
- HORIZON-INFRA-2023-DEV-01-07: Strengthening the international dimension of ESFRI and/or ERIC research infrastructures
- HORIZON-INFRA-2023-DEV-01-08: Preparatory phase of new ESFRI research infrastructure projects
- HORIZON-INFRA-2023-EOSC-01-01: Build on the science cluster approach to ensure the uptake of EOSC by research infrastructures and research communities
- HORIZON-INFRA-2023-EOSC-01-02: Development of community-based approaches for ensuring and improving the quality of scientific software and code
- HORIZON-INFRA-2023-EOSC-01-03: Planning, tracking, and assessing scientific knowledge production
- HORIZON-INFRA-2023-EOSC-01-04: Next generation services for operational and sustainable EOSC Core Infrastructure
  
- HORIZON-INFRA-2023-EOSC-01-05: EOSC Architecture and Interoperability Framework
- HORIZON-INFRA-2023-EOSC-01-06: Trusted environments for sensitive data management in EOSC
- HORIZON-INFRA-2023-SERV-01-01: Research infrastructure services to enable R&I addressing main challenges and EU priorities
- HORIZON-INFRA-2023-SERV-01-02: Research infrastructure services advancing frontier knowledge
- HORIZON-INFRA-2023-SERV-01-03: Research infrastructure services advancing frontier knowledge: co-fund pilots with pan-European RIs and/or national RIs
  
- HORIZON-INFRA-2023-TECH-01-01: New technologies and solutions for reducing the environmental and climate footprint of RIs

Project Abstract (**very important - the abstract will be used to evaluate your expression of interest**):

The project has the scope to develop an R+D+I model (Research, Development, and Innovation) for the Higher Education Institute of the region and for the countries of the Central American region and for the University, which strengthens and expands the institutional capacities that can respond to the sustainable development needs of the regions.

Another objective of the project is to promote the University-Society-Company relationship to contribute to the integrated competitiveness of the Central American region, in order to create a sustainable economic base according to the conditions and needs of Central American society.

The project will coordinate multidisciplinary processes for the incorporation of innovations in the HEI's pedagogical model, according to the conditions and needs of the social context, to strengthen the regional educational quality, and promote inclusion and social equity in the Central American region.

Other goals include promoting knowledge as the basis of regional development and the work of the Central American HEI's, promoting applied research and the transfer of knowledge generated at the Universities, to respond to the scientific demands of the company and society.

Another scope of the project is to promote the development of human talent inside and outside the Universities, as the main promoter to generate processes, research and innovative services, capable of promoting sustainable development in the medium and long term.

And the last objective is to disseminate the achievements and opportunities for research, entrepreneurship and technological and social innovation that the program has, through the coordination of activities, publications and representation of the program in systems and media of scientific and social dissemination.

The project will also create additional capacity at European Partner Institutions and Central American Higher Education Institute to increase international academic exchanges and strengthen international networks between the European Partner and Central American. Participating students will have the opportunity to present their work and experience to their campus community in a series of workshops and presentations designed to increase student and faculty interest in study abroad and faculty exchange opportunities. This activity and other promotional emails following the events will engage students and faculty in ongoing outreach to support study abroad and will serve to increase the flow of inbound and outbound students between the Universities.

Specific question /issue/problem to be discussed:

How to Strengthen the capacities in Research Infrastructure in countries with low levels of development in Research and Technology and Knowledge Transfer?

Coordinator name:

Marlon Alexander Medina Chavez

Coordinator e-mail:

alexandremedina06@gmail.com

Coordinator mobile phone:

504-22320036

Coordinator website:

Coordinator country:

Honduras

Consortium partners from widening countries:

Coordinator expertise relevant to project objectives, previous participation in relevant projects:

Development Coordinator of the Institute of Innovation and Technology of the Universidad Pedagogica Nacional Francisco Morazan (IINTEC – UPNFM)  
Development of the program to help to small and medium entrepreneurship of the students of the University that investment research applied for development new products, process and education serveces.  
Design and implementation of the program capacities for enterprises that participate in stimulate to innovation and development across to create of the brochure of the program incentive to innovation relationship between University, society and enterprises.  
Advice to teachers and researchers in innovation, development and research models  
Attached to IINTEC.  
Encourage the generation of the proposals for research and development projects before the university community.  
Foment the generation of knowledge from of the proposals of development that begins from of the IINTEC initiative in project of the innovation, science, and technology for to development new product and process in the public and privates enterprises.  
July- 2011- July 2017

Development Coordinator of the Institute of Development and International Cooperation (INCODE- UPNFM) of the Universidad Pedagógica Nacional Francisco Morazan

Strengthen and promote the management of international cooperation projects in order to harmonize with institutional plan.

Advice to the Direction of the Institute for to promote and identify the possibility to participate in the international calls for development international projects.

Prepare and execute a training plan aimed at teachers of the university on project formulation

Build capacities to permanently have a portfolio of UPNFM projects

Define strategies for the formulation, monitoring and follow – up of academic projects of resource generation and investment

International Project Worked, I worked for the Development Interamerican Bank with the Universidad Pedagógica Nacional Francisco Morazan, the name of the project is labors market and alternative education, number of project 1552 between the period of 2006 at may 2007

I worked and coordinator the International project Strengthening of educational management through the use and approach of photovoltaic energy for the Universidad Pedagógica Nacional Francisco Morazan, [revistasumma.com/us3-millones-para-financiar-proyecto-de-energia-solar-en-universidad-hondurena/](http://revistasumma.com/us3-millones-para-financiar-proyecto-de-energia-solar-en-universidad-hondurena/)

Development Coordinator of the Institute of Innovation and Technology of the Universidad Pedagógica Nacional Francisco Morazan (IINTEC – UPNFM)

Development of the program to help to small and medium entrepreneurship of the students of the University that investment research applied for development new products, process and education services.

Design and implementation of the program capacities for enterprises that participate in stimulate to innovation and development across to create of the brochure of the program incentive to innovation relationship between University, society and enterprises.

Advice to teachers and researchers in innovation, development and research models

Attached to IINTEC.

Encourage the generation of the proposals for research and development projects before the university community.

Foment the generation of knowledge from of the proposals of development that begins from of the IINTEC initiative in project of the innovation, science, and technology for to development new product and process in the public and privates enterprises.
